

City of Gunnison

The City of Gunnison has closed the bike and pedestrian paths, bridges, and underpasses along the Gunnison River due to ice dams along the river. When the ice dam north of town breaks loose, water levels are expected to rise 6-8 feet and water and ice will breach the retaining walls along the underpasses. Both the underpass north of town by Garlic Mikes and the underpass near the White Water Park are closed. Please respect these closures for your safety.
